From the Office of the Editor

May 26/89

To whom it may concern:

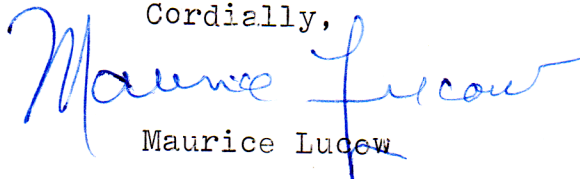

This will verify that JEFF ROSEN has been employed by the editorial department of our paper for the past four years (as of this date) as a general assignment reporter, makeup editor and headline writer. He is also a qualified photographer.

Jeff has specialized in political and community matters and is a first-class, accurate reporter. He works quickly and is completely reliable. Like all good newspapermen, he works long hours, knowing that deadlines have to be met.

Jeff is also very knowledgeable technically and has been a great help in helping the paper make the transition to computerization.

I heartily recommend him for any newspaper position you may have to offer.

Cordially,

Maurice Lucow
